Non-Stick baking sheets up to 4000 uses...

- Non-stick, glass fiber, baking sheets.
- Very strong, tightly woven material
- Using applied heat resistance technology

- These baking sheets provide a smooth, perfectly non-stick surface for all baking and cooling needs (caramelized sugar wipes off easily).
- Double sided use, up to 4000 times.
- Extremely easy to clean and store, time saving in all production cycles.
- No more conventional baking paper required.
- Ideal alternative to silicone products.
- Temperatures of use: from -40°C to +300°C.

Also available as conveyor belt systems.

Other sizes available upon request.
